

NARBHAVI

13th July, 2021

Dear Friends,

Heartiest congratulations and my good wishes for all your efforts for the future prosperity, not only for human beings, but for the entire world.

All our prayers to the Almighty (Mother Mary), to give us strength to withstand all the present bad situations that have affected human beings. Covid-19 has brought a great disorder in the worldly life of human beings. But at the same time, by the mercy of God, we are able to withstand this most difficult period.

Today's concern is the World's atmospheric conditions. The North and South Poles, the icy lands, have started melting which will create great danger in so many ways. In order to control this, we need to keep ourselves ready to overcome this disaster, nature itself gives enough strength, ability, and to stop the disaster. First of all, we have to clean our houses,

inside and outside, and stop producing too much heat and smoke. How is this possible? The best way is to plant trees, fruit-bearing plants, and flower-bearing plants, etc wherever possible. Even if your lawn is small, at the footsteps, in a pot keep some vegetables like tomatoes, etc. This will give you inner satisfaction, and at the same time as the trees grow bigger and bigger, they give fresh air. It is also going to stop the pollution in the air. Pollution control is most important. I want to tell you very strongly, Stop Smoking! Use vehicles only at important times. The smoke that comes out of all the vehicles, planes, etc. disturbs nature. One must be very, very cautious to take care of themselves and, at the same time, take care of the woods. If possible, plant more trees. That will help.

One important thing that I want to tell you is that, without the grace of Mother Mary and Mother Earth, we cannot do anything. So we must have absolute faith, with devotion to the Almighty.

Come out, have a big smile. Big smiles always with friends and relatives. Be closer with mind and soul to everyone. If we could look into each other's hearts and understand the unique challenges that each of us faces, I think we would

treat each other much more gently, with more love, patience, tolerance and care.

Now we come to the conclusion that this is the most important thing in our life. My dear friends, it is the greatest opportunity to be a human being in this wonderful civilised world. You are enjoying the beauty of yourself, the beauty of your house, etc, but at the same time, try to learn to enjoy the beauty of nature. The mountains, the peak, the snow glacier, and the rain drops, the gentle shower which comes along with wind, even though it is chill, it gives energy. Be chill (Be calm and cool), there you can feel the freshness of the fragrance from your inner soul. I want to tell you one thing, the Eau de Colon 47111, your country's product, the smell of which you like, but the most divine fragrance is in your soul. What a wonderful, divine work it is for the sake of mankind.

Look at the Sun God. The sun rays come to the earth, and using those rays you are making solar energy. So each and every atom coming out from nature is only for the sake of humans and living creatures.

Now at last, my dear friends, today I want to conclude this message to you with full of peace and happiness in the

depths of my heart. Why? I want to be with you and within yourself forever and forever. Walk freely like a soldier! Look with bright eyes to nature! Enjoy the fragrance of the flowers in the meadows! Look at the animals, how free they are, and how they got freedom. God has given you freedom, prosperity, happiness, peace, and harmony. Then what more do you need? You have already got everything.

Dear friends, enjoy life with peace and prosperity, and with full of positive thinking. Breathe the fresh air without hesitation. That makes your blood system flow properly, gives energy, strength to your body to do your day-to-day work. In this worldly life, one has to establish themselves with all peace and harmony. Either in the personal life, or in public life. Let us sail together in the vast ocean. The first few miles you may see the waves, then the water becomes smooth.

Life is a smooth sailing ship. Each and everyone travelling in the ship is a warrior. But we must understand that our ship is not a war-ship which is fully loaded with atomic bombs. At the same time it is loaded with love, harmony, and peace. Our pilgrimage towards eternity is full of joy, glory and compassion. Thank you and my most humble, sincere

prayers to all of you. I feel we are all one. Liebe God (Love God)

SANTHUSTI

PS: This letter belongs to our friends in Germany, Austria, and Switzerland. Divine joy is our motto. Santhusti! Dear Rupa, please send this to all.
