

NARBHAVI

16th July, 2021

Dear Friends,

Something tells in my inner soul to give this message to all of you. Friends from Germany, Austria and Switzerland, I am very proud to know and also I enjoy each and every moment of your love and hospitality, which makes me stronger and stronger. Nowadays, everywhere in the world there are a lot of problems, struggles due to health hazards, but I am sure it will end very soon. Today happened to be Friday, it is the day for Mother Mary. The candle which is burning within our soul started melting with love, compassion, and harmony.

It may be imaginary thoughts of mine, but I feel that our love, our harmony and our compassion are a big ocean.

Today, my main message to all of you is to be strong inwardly and start to work for good, and be with nature full of admiration and love towards the God's gift of nature.

Please go through these words -

Ask a question within yourself

1. What is beauty?
2. What is love?
3. What is relationship?
4. What makes you want to go on a pilgrimage?
5. Going on holiday to many countries, what lesson will we get from all these things?

Only one word - it is the play of Nature (God's Grace).

One must have faith in God, or Almighty, and at the same time faith within themselves. Then only we can enjoy, and relax in this worldly life. In our day-to-day life in which nature gives us divine strength, peace, harmony, etc. All our work, and our efforts is only to enjoy comfortability in life. The divine mother assures us to give you all comforts and what not, but at the same time we also understand the greatness of the Mother God and have absolute faith (surrender).

To keep the body, mind and soul very clear, one must practise meditation, yoga, and prayers. That is the solution to come out of all the hurdles. Dear Friends, don't have tension or cry. Try to understand, and analyse why it happened, and think again on how to come out of this where you can find divine support from within yourself.

What a wonder! The Divine Mother gives not only energy, but peace and harmony. Her compassion towards mankind cannot be measured by anyone. It is beyond the limit. I can very well say Her love is like an ocean. Go and enjoy the mountains, valleys, lakes, and the ocean and at the same time see the river on how happy and how they bless us, all humanhood. In our ancient period up till today, everyone all over the universe worshipped Sun God. He is everything, and He brings not only life, our life is most precious. You should not waste this life, and we must serve others and our Nation. Motherland is most important. Motherly love and affection are not comparable. Dear Friends, have absolute faith in you. In this moment, I want to tell you my sincere prayer always for you all. You think about me and call Ramani! Ramani!! Ramani!!! And you will get the answer.

My presence is with you, and your presence is with me. This is because of our previous incarnation, we always are bound together.

Ales One, Everything is One!

My humble, sincere love and affection to all of you!

Thank you! Danke!

My sincere prayer to Mother Mary to give all comforts, strength, peace, prosperity, to all of you.

SANTHUSTI

Ramani Guruji
