

NARBHAVI

*19th July, 2021*

Dear Rupa,

I saw in the TV the great rain disaster in Germany, and neighbouring places. It is a horrible sight. I pray to Kaka Bhunjanda and Mother Mary to take care of all the people who suffered in the disaster, and add strength to establish themselves again. Only divine faith and our devotion towards Mother and Mother Earth will protect us; one must understand this.

A sudden disaster of heavy rain in some regions of the country and neighbourhood. CloudBurst made so many people suffer and they lost their home, lost their livelihood and properties, etc. This is a horrible sight. May the Divine Mother protect them, and bring them back to full strength, and re-establish their life.

The climate change made this CloudBurst, thunderstorm, etc. The reason is that you are going against Nature, but

Nature itself is God. God made Nature with all beings living with peace, comfort, and full prosperity. One must learn to teach the importance of Nature and make everyone love Nature.

Now, the message from the saint and sages. See, the Earth wants full strength from us and She needs our smile and love towards Her. Dear friends, it is the time we must think, to grow ourselves with Nature. The time has come to establish peaceful human life in the entire country.

1. Plant trees, and flower plants, and vegetable plants, and spend time with them, whenever possible, the plants will speak with you. It gives you inner satisfaction.
2. Try to change your food habits. As far as possible try to be vegetarian. All kinds of adulteration in all the food stuff also give complications to our health. After the World Wars, Germany and the neighbouring countries were involved in a lot of health problems because of radiation. In order to avoid the radiation, it is our duty to plant and safeguard trees and woods.

Sun and Moon are our father and mother. The Earth gives us the opportunity to live with peace and harmony. Love yourself. Love Nature. Love the Country. Always have absolute faith towards Mother (Mary). Don't bring any unwanted thoughts or hatred in our mind. We don't want any war. We want peace, joy, love, and compassion. Always feel that life is a gift, not only for us, but for everyone. It is absolutely our duty to make use of it to deliver the message of Jesus - which is Love. The sweet fragrance which is inside your soul. Smile always. Do good always. You will get divine blessings, not only blessings, you will become an enlightened soul

Prayer, meditation will make you think positively and also make you understand the purpose of life. This life itself is a pilgrimage. Try to enjoy the beauty of Nature, and speak with Nature, you will feel that you have become a different personality, because you have become blissful. Love your work. Do good things always. That brings inner joy to you. Plant trees, or vegetable plants in your garden, and visit them whenever possible, and speak with them. The gentle smile they give will make you happy. What a wonder!

The creator has given such a power to the plant. What a wonder! Dear friends, the wonder is not outside. It is within

you. In order to clean your blood system, drink water, breathe fresh air, walk in the forests and meadows. The air will bring a lot of divine energy for your body, mind, and soul. Breathe properly, that makes you live long, strong, and with all inner strength.

Finally it is the lesson for all living beings, including human beings - Nature is always Nature, but we mistake Nature and we think so many things with our intelligence. My humble request, the Divine Mother (Mary) always gives strength, and She carries us always. I want to tell you about one of the most divine pilgrimage places, Kevelaer. The main place is a small Mary church. In that place, one cannot measure the vibration. It is spread always in order to purify our soul, and our living places. If you think and pray to Her, you will get the answer. One important thing Mother Mary sends angels to deliver peace and harmony and compassion to us. Please enjoy. When you enjoy an experience, think about Ramani! Ramani!! Ramani!!!

Thank you!

**SANTHUSTI**
