## **Peace and Prosperity**

*Enjoy Nature with compassion.*

Dear Friends,

My prayers, full of love and with all divine blessings.

Divine Mother is going to shower her grace to all of you very soon. **BE READY TO ACCEPT THE DIVINE STRENGTH, GUIDANCE, AND GRACE.** Mother Mary is going to make us understand the truth. The beautiful nature, the blossomed flowers which are going to talk to us, the snow dews that touch your body make your soul get more energy and power.

Mother Mary has sent 9 angels to guide all of us. You will know this very soon in different parts of your country. Please listen for a moment. What I want to say to you is as

per the guidance of Kaka Bhunjanda. He promises all that you will be protected from all evils and danger.

After the World War, all the people lost their inner strength and became fearful of life and danger. Most mothers (ladies) suffered not only from fear, but from torture as well. After the World War, by the grace of Mother Mary everyone found a way and started again to establish their work to get shelter, food, and other comforts. After very hard work, and hard days, Germany (Austria) started walking towards good and establishing their pride. Even though everyone got all comforts and facilities, they were not able to digest the past sufferings due to the War. It is like a bad dream every moment in their lives.

In general the World War left fear, negative thoughts, and most of them do not know what to do. Oh my God! Here is the sound they heard - "I am coming to help you. Don't get tired. Your life is endless. They looked in the direction the sound came, they saw a church and Mother Mary." From day one they got confidence and strength. The younger generation is not able to achieve positive thinking because they heard all the fear and danger of the War. Now, my dear friends, time has come to prove the great abilities of each and everyone in the country. Teach children good things, full of

love and affection. We have to shower our love and they must understand the compassion of that relationship so that they can step forward to achieve good things in life.

My dear friends, you know very well that once Germany was divided into two parts: **EAST & WEST. IT IS LIKE SOUTH POLE AND NORTH POLE (MENTALITY).**

Even though East and West joined together still some sort of wants sometime in people's mind get fear or emotions. This will go away in the next three years. Like a wonder it will happen with the grace of Mother Mary. All mothers must cultivate good habits in their children and also the belief in God. They must enjoy the grace of Mother God and pray. As a whole family, sitting at the dining table not just for eating, but for laughing and talking. It must bring unity, integrity, love, and one with the family. Mother is everything, mother is God.

Service to people is Service to God. We must protect the environment with clean habits and remove the dirt and make atmospheric wonders. One must understand the life of plants, trees and also cultivate a habit for our children to show interest in the field to work with a plant, flowers, and vegetables. At least in our house gardens. It is the other way of diverting their mind from bad things. Here I want to say

one important thing, "The younger generation is very smart and full of wisdom. It is absolutely our duty to make them turn their ideas and work towards the right direction. Young generation is the pillar of our nation. It is a great pride of each mother."

Mother's love is true and it is Nature. Nature itself is Mother. None is equal to Mother. In order to find the truth of God, one must understand that his **LOVE (PLEASE VISIT KEVELAER MOTHER MARY CHURCH. THE VIBRATION NOT ONLY GIVES YOU STRENGTH, BUT YOU CAN REALLY ENJOY THE DIVINE JOY).**

At Mother Mary's church, there every second the divine rays come from heaven to the earth. Especially in Kevelaer, Mother Mary's church, you can feel and enjoy the divine energy. My prayer to all of you. Good will happen to all.

Narbhavi! Narbhavi!!  
OM SHANTHI

## **Switzerland**

The bird swan is so beautiful with wonderful habits. It walks in the water or on the field full of gentleness and sweetness. Everyone loves and enjoys these birds, and their good nature. Natural beauty, peace, and prosperity are the gifts of God. People are very much motivated on business, and they enjoy the most luxurious life that is Swiss.

## **Austria**

Excellent natural beauties are the best attraction in Austria. Youngsters jumping from the top of the hill in their gliders is a great sight to see. In winter most of the people will come there to enjoy their holidays to witness ice skating and also lots of playgrounds of tennis etc. Most of the places in Austria are pilgrimage centers. The most wonderful, ancient, famous town is Vienna and one has to enjoy the beauty in its flower gardens, and the palace. Come to Austria and enjoy the horse-driven chariots, lovely people that is Austria.

## **Germany**

You know the wall clock. Its second hand goes very quickly; sixty times faster than the minute hand. Then the minute hand moves 1 point. Like that, people in Germany work in mines, in harbours, in steel factories, and automobile manufacturing units, and other industries. Most of their work is very tiresome. Hard work and they have got little time to rest or enjoy. So busy! Nowadays the mines are shut down, and most very big industries have moved to other places. People also like a flying bird moving to some other places. But one great thing is that the Divine mother makes them happy and helps them create excellent livelihoods and also Germany brings lots of intelligent personalities in their universities. Taking care of the elderly people, Germany has stood first in it. Hats off to them! Nowadays children wants to do better work to establish Germany as the #1 country in the World. Their work and hardship will give good results to achieve their aim. It is true, Mother Mary gives her fullest blessings to all of them. Take care of children with love and compassion to become the most wonderful citizens of your beloved country. My salutations to all the countrymen of Germany.

Be like a honeybee!

Thanking you,  
Ramani
