Dear Friends,

Enjoy the beauty of Nature, and it brings its fragrance in the mild, cool breeze. The mind must be fresh like ice glaciers. One has to know that life is most precious, and it is gifted by the Divine Mother herself. Devotion, faith, takes us towards Her and we can enjoy the great inner peace and blessings of Mother (God). At this moment I want to tell you it is a great gift for us to be a human being in this universal life.

Celebrations, festivities, etc give us inner peace, and solace, and makes us come to know so many people. By way of this we can enjoy the joy of compassion.

Birthday

Dear friend, Happy Birthday to all of you. How do we decide when to celebrate a birthday? For birthdays, do not count your years, but it is the day to make you remember

and understand your responsibility and you have to work to achieve something in the coming days. It is a beautiful celebration in this worldly life that brings a lot of joy to each and everyone. Dear friends, what a wonderful world! You are celebrating birthdays in order to be ever young, fresh, and full of energy to do good service to humanity. You know very well service to Humanity, is service to God. Cutting cakes not for God, or eating.

It is a sweet moment to share with all of us and it brings everyone to come closer and closer. This kind of celebration makes us feel like it is a Divine Family, and at the same time it brings joy, energy, and strength to each and everyone. That is the grace of God.

BIRTHDAY MEANS WONDERFUL DAY FOR ALL OF US. CHEERFUL, HAPPY, AND ENJOY, AND SHARE THE COMPASSION WITH OUR FRIENDS, RELATIVES AND OTHERS. One thing I want to tell you, don't count the years that you have passed so far. You are young, and energetic forever and forever. Smile with divine joy, that is life. We know that worries, sorrows, and whatnot, are man-made. God's gifts are smiles and joy. Bring the happiest atmosphere in and around you, and feel the freshness and fragrance of Godliness in each and everyone's

soul. Dear friends, God gives you the gift of Smile. Love everyone with full of divinity, and make everyone feel it is a family of Divine Mother.

Smile and sing songs when you feel you are in trouble or sad. Immediately you get divine energy. Smile, joy is the purpose of this birth. The child smiles, why? Because there are no sorrows or problems. But we human beings always show our face and say sufferings, sufferings with a negative thought. Remove the negative thoughts. March forward with positive thinking and you can find the brightest way of your life. For life, there is no end. It is going on and on. Remember, the gentle breeze coming and touching you and you can feel and enjoy it. If that gentle breeze has such power, why don't you think how much power you have got.

That power God has given you as a gift. You are a gifted person by the grace of the Divine Mother. Here, I want to tell you one thing. Go to Mother Mary's church at Kevelaer. You know, whenever I come there, I buy 30-40 candles and give it to everybody to light the candles. The candle while burning it teaches so many things to us. You can feel the presence of Mother Mary while the candle is burning. The candle teaches a great lesson of sacrifice. The light from the candle is your soul, It is ever bright and shining. The wax

melts while burning. The wax is your body. When you feel the presence of the divine within your soul, your body must melt like a candle. That is called Bhakti! You can call it devotion or faith. Devotion, faith leaves our life to eternity, which is permanent and ever-lasting. What a wonderful lesson that a candle tells us every time. It is a glorious vision for everyone to understand the purpose of life.

Enjoy the beauty of flowers and its fragrance. See for a moment its colours and its formation. What a wonder, how God created such wonderful flowers, fragrance, and beauty, then you can understand how the great Nature takes care of us. It is also our absolute duty that we take care of Nature. Nature nourishes everyone in this worldly life. You must be useful to everyone forever and forever. Life is a glorious one.

Thank you
