

NARBHAVI

*25th July, 2021*

My Dear Friends,

It is my greatest pleasure to share my thoughts with you each and every day. Even though we are far apart, thousands and thousands of miles away, but at the same time we are all connected with love, affection, attachment, compassion, and more than that with brotherly love. Now we can enjoy the great inner peace and harmony because we are all one with every moment. Our souls talking to each and everyone a connection, it is called divine connection. The sound and light with you and with me talking to each other, what a beauty! What great Masters! It is a play of the great divine Mother. Divinity, bliss, enlightenment, one cannot buy in any market or mall. It is a gift from the Almighty Mother.

Dear friends, the great power and strength, and the divine vibration, which is within you, bring out, with full of energy and enthusiasm, try to save other people. There you can find the real inner peace. This is most important. Your country is

very rich, not only in material, but also philosophy. You know very well the rhythmic words of yours, "say good, do good, ales good", it penetrates deep in your inner self. At the same time, it gives joy to each and everyone. You know very well that after the World War, most of the things were destroyed, yet now your country is getting up and up with wonderful buildings, industries, business complexes, etc. But it still needs more work to becoming #1 at the world level. German products are well known in this world. The progeny of Germany is highly vedantic and spiritual. But thinking about modern civilization, we forget everything. Our mind thinks civilization is spending time in pop music, dancing, drinking, gambling, and whatnot. You know very well that you people spend more time on the dining table. Come out and spend time in the garden, or in the lawn you can feel you are all in a paradise.

One thing you must teach every generation is to plant trees, or flowering plants, even in pots, and cultivate vegetable gardens. You must bring the enthusiasm of the above to the younger children. The tiredness of what you say, and mental action disturbs your body. Smile and joy give you energy that makes you happy by way of singing and dancing, and praying. Come together, sit for sometime, pray to the Almighty, talk about good subjects in order to make

everybody happy, and at the same time they will forget the hardness and sorrow for some days. That is called satsanga. The other way you can call it is meditation, yoga, breathing exercise, and walking, and joking, all part of the present day life.

One must have a sense of enjoying the beauty of Nature. You may ask how to enjoy the beauty of Nature. A simple way is to come out of your house, walk in the woods, meadows, and mountains whenever possible, and try to be one among Nature. Nature will nourish you so that you become a cherished personality. The personality is not beauty alone, it is the inspiration of your own self and it makes you have intuitional power. It is a gift to you. You have to develop the intuitional power and say all this good and save others who are in need of help. Always feel that helping others is the beauty of us.

Dear friends, it is absolutely your responsibility to take care of family, children and their prosperity. Always my prayer to God to give you all the great divine energy and strength to do good things to everyone. Be happy, it brings joy and it makes you cherish it with full of divine power. My dear friends, God is within you. You are God!

My salutations to all of you.

Thank you

Ramani Guruji
