My Dear, Beloved friends,

Wonderful, harmonious morning for all of you. My father, Sun God, is slowly showing light. It is a wonderful sight to remember in our day to day life. I have put my bare foot in the grass. It is chilly, but at the same time it gives life energy, not only for my body, but also for my soul. One has to give thanks to Mother Earth. If we don't thank Mother Earth, that means there is no gratitude towards Her. Nature and ourselves are one and the same. Please remember "1+1=1".

Today I want to point to our day-to-day activities. One must be strong, not only mentally, but also physically, and at the same time you must always ask everything from the inner soul. Human beings get solace only from the inner soul. How wonderful life is? Most of us spend our long days without thinking about all these things. Sometimes we think life is like a joke. Life is to live forever and forever. Honesty, nobility, sincerity is our main objective in this life. If we

follow, we can feel and enjoy the security from God. Sincerity and security give a great energy in our blood system to flow rhythmically. Again, I want to stress dear friends, breathe well, smile with joy, start your activities with full of courage and strength, and with love to our fellow men. That is life. Now you can feel what a wonderful life it is. Forget the days which we have passed without doing anything. Think that is a dream. The great light of the divine Mother coming before you to guide you, to support you and to give you great harmony, peace, prosperity, etc.

You have to start the pilgrimage to enjoy nature. Not only to enjoy nature, you must be one among nature. Nature is manure, and nature is life. When a plant grows, it gives fruits, flowers, and all kinds of useful things. The trees and plants coming for the sake of human beings, even though it dies, it helps human beings. The great power of light, what do you think about enlightenment? It is nothing but a power of light within you.

My dear friends, now you understand it is the gift of God. How fortunate we are all, God has given such a wonderful gift to human beings. Don't hesitate, fold your hands and say to God, "Oh God! Danke! Danke! Danke!". One has to think of perfection, purity, and sincerity so that the person

makes himself the security for others. Today in this worldly life we need security. Then only we can enjoy peace and harmony. See the meadows and mountains, the gentle breeze. All the four corners it showers, not only the blessings, the great beauty of God. God is Ales, God is One, He is within you and He is within everybody. One must have a goal in life to achieve the purpose of this life. It is nothing but to have faith in God, love fellowmen, do good, say good, and Mother Mary will come before you and speak to you. What a wonder, how great is the soul. Now you enjoy the purpose of your birth in this soil (Earth). Mother is everything. She is the embodiment of love and compassion.

What a wonder, the Sun God (my Father) started to give a little bit more shining, brightness. It is the time we go and sit outside a tea restaurant, and take a cup of tea with friends. Again there is a great inner urge for you to develop your skill, to attain the highest order of the birth, that is life. Life never ends; always think that life is going to give guidance forever and forever.

Thank you! Start your pilgrimage to meet our beloved ones, at the same time enjoy nature and be among nature.

Thank you!

OM SHANTHI!
