“Santhusti”

Santhusti is the wind and light

Universal beauty is the mother earth and sky. All the creatures - humans, animals, birds and trees, are all gifts in this wonderful world by the great divine god.

Life, in this wonderful world of love, is the real heaven or enlightenment.

Breath is the smell of god, your blood gives you energy to realise relationship, affection and attachment. Breath well. With each and every breath enjoy life with pride and peace.

Smile removes the fear and suffering from your inside.

Walk in the forest (woods), enjoy the sweet murmuring sound of the leaves, it gives you strength.

The trees will also get more happy and will welcome you very often. The gentle wind in the forest will hug you and

give peace to your inner soul forever. What a wonderful life in this universe.

Vargala, angels brought the sound of love and affection closer to everyone. Church bell remembering you the duty with all sincerity and honesty. Service to people, service to god, come closer and closer than you can feel the divine strength which is within you. Today you don't know who you are. By the great saint Bujanda I'm telling you, you will find the divine flow within you and you will do the best for others. Your actions will make everyone happy.

Good air, good water purifies everything. Breathe well
Beata.
