20th August, 2021

Dear Rupa, and all our friends,

It is a great pleasure for me to share my thoughts with you and all our friends. What a wonderful world! What a wonderful opportunity God has given to be with Nature, not only enjoy ourselves, but to share our joy, peace, harmony with each and everyone. Doing service to others gives great inner divine energy which makes us do good help/support to others. At the time we get more and more inner peace, and divine energy because of the great grace of the Divine Mother. The Mother is ultimate. Nature gives us life in order to live with all peace, and prosperity. By that we can do a wonderful duty of ours - To Serve Others. The air is most important in order to breathe. Life is most important in order to serve others. Serving others is most important to reach divine enlightenment.

A wonderful Friday morning. With a divine smile, the Sun's rays come out. The gentle breeze brings the flowers'

fragrance and it touches your nose. What a wonder! You are fully blessed because of this divine fragrance of the beautiful flowers.

I were a **flower**, my lifespan would be 15 days.

I were a **fly**, my lifespan would be 20 days.

I were a **mouse**, my lifespan would be about 3 years.

I were a **cat**, I would live for about 15 years.

I were a **horse**, I would live for 20 years.

IF

I were a **human being**, I would live for about 80-90 years.

I were a **parrot**, I would live up to 100 years.

I were **Mother Nature**, I would exist for millions of years, and bring forth unlimited plants, animals, and human beings.

I were the **Sun**, my life would be inconceivable. I could emanate light and energy for billions of years.

I had **full awareness** of the inner living force which resides in all beings and it is my true nature, then I have reached God and have become immortal.

Dear Rupa, again I want to say, we will live forever and forever along with Nature because we are one among Nature. Please tell our friends "1+1=1, you and nature are also 1+1=1". Each and every moment in our life we learn more and more from Nature, because we merge ourselves with Nature. One can enjoy walking through meadows and forests, going along the mountains and rivers. They feel not only joy, inner comforts, but also at the same time they enjoy the smoothness of the divine energy. It is the time for you to teach or tell our friends, "Calm down yourself. Think positively. Meditate. Breathe. Inhale and exhale." Don't leave your thoughts somewhere else. Bring your thoughts in oneness of your soul. What a wonder! You can feel yourself becoming the divine Mother. As I told you, the ultimate is the Mother Goddess. She is very pleased. She knows your wish. She heard your prayers. She is full of joy, why? Because you are the child, she is a mother. Think for a moment of Mother Mary, you can see the divine light within you. The words will come out with inner joy like a waterfall, and not only cools yourself down, it gives a divine cooling effect to all of us.

This is divine Friday morning, my prayers to all our friends to get more and more strength, bodily, mentally, and

financially, in order to have a harmonious life. Joy and harmony are within us, we cannot buy it from any supermarket. Come on! Ask our friends to enjoy Nature, walk along with Nature, breathe the gift of Nature (breathe fresh air). Everyone is assured; we can live as long as we wish, and not only that we will live forever and forever. Have an aim. Achieve it. Tell your inner feelings and thoughts to everyone. Smile always. It is my big smile to all of you.

Thank you!

Ramani Guruji
