

NARBHAVI

27th August, 2021

Dear Rupa and friends,

It is a great pleasure for me to contact you each and every day. It really gives inner divine joy. All my thoughts and remembrance, all my visits to your place, Austria, Switzerland, it comes before my eyes and makes me joyful. Dear friends, you know the outstanding joy is never ending, it brings each and everyone closer and closer. That is Vasudeva Kutumbakam. My salutation to the divine Mother Mary, and the divine Mother Earth for giving this opportunity to be with you all.

Please think for a moment how wonderful the world is and how excellent and divine contact brings us together. Now it is really sure "1+1=1". Your work gives energy to our people and makes them happy and feel young and energetic. Even old people feel very strong and happy, full of harmony with Nature.

Though I do not know words, nor the meanings of words, nor the form or phrase or verse. A six-headed divine light shines in my heart, it is a wonder of wonders. Words flow from my heart without stopping. My words come without thinking. Sometimes I feel it flows like a waterfall.

Sometimes I show a pretty picture using my words. The wonderful green mountains and meadows, smiling at us and the water flowing from the mountain gives excellent energy to everyone. What a wonder!

Mother Earth gives all comforts and love, for each and every one. Dear friends, what a wonderful world, and we are very lucky to be like a joyful family in this world, with Nature.

NATURE

Nature fulfills all our wishes and ambitions without saying no to anybody. While you walk in the forest, or the mountains, do not talk "blah blah blah" and listen to the wonderful whistling sound of Nature's breeze and its rhythm gives you the fullest energy within you.

Breathe well, enjoy inner energy and peace. It gives a long healthy, harmonious life forever. While you breathe well, fresh air enters your heart, and bad air goes out. When fresh

air enters your heart, you can feel and enjoy the divinity within yourself. Self realisation is nothing but to know yourself. When the inner self is full of purity and love, you become an enlightened personality. It is a gift to you by the divine Mother's grace.

Dear Rupa, tell our friends, Mother Mary in Kevelaer gives the greatest energy for the region and those who touch the earth, or walk on the earth feel fresh and joy which makes them understand about life. You think for a moment on how life is beautiful. Don't think about the span of life. Think it is forever and forever, absolute. This kind of inner feeling makes you realise the faith in God.

Without faith no one can live with peace, happiness, and harmony. Treat everyone as the same, and at the same time everyone is blessed by a divine Mother. The Almighty never sees any difference, He always says "Ales One!". This is the time for you to inform everybody, "Say Good, Do Good, Ales Good!". It is the greatest philosophy, one has to make life a philosophy. Think good, don't delay, do it quickly. For your good action, to do good things for others, you will get a gift from Mother Mary. Don't forget honey cake.

Within a second the candle, which is not only giving light, but also teaches you to sacrifice for the sake of others and make them like a light. Please, inform all our people to be strong inwardly, and make them motivated to do good things, then one becomes like a morning star. With all my divine wishes, prayers for all of you to have a wonderful life with a comfortable job.
