Thought of the day

Dear Rupa, and all my friends,

It is God's will and blessings for all of you, safety, security, and full of harmony and peace. I want to say a few words to you. Lucky means who gets the opportunity. Brilliant means who creates the opportunity. Winner means who uses the opportunity. Be confident about yourself, and believe that you are a winner yourself. Confidence will make you unstoppable. Optimism is the faith that leads to achievement.

In this universal life we are very lucky to have, not only divine guidance, but at the same time we are constantly touched with divine energy. Mother Mary takes all the burdens of ours and gives abundance of joy and energy. Please smile and have a big smile to show your Santhusti to all. Again and again I want to tell you that positive thinking

and our approach towards the aim or goal in our life, can be done with full devotion and determination. Unless and until you have positive thinking, nothing moves and the world becomes crazy. Don't give a chance to become depressed in your thoughts.

For that purpose, the journey of your life to achieve the goal of life, to serve not only ourselves, but everyone in this universe. Human beings, animals, birds, are all our kith and kin. They also want us to be joyful and also to live with us for the sake of attachment, and love. What a wonder! Even though birds are animals, the compassion one has to experience by experience with unshakable, absolute faith and love.

Our elders already showed the path of life - life is nothing but love, which is nothing but devotion. Devotion is nothing but determination. Determination which is within your soul is permanent, everlasting, and eternal.

Come closer and closer. Share each and everyone their faith, aim and achievement, and all their wishes. Wish, and God will fulfill your wishes. Ask your Mother what you want, Mother will give you. Mother is ultimate. Whether we are

feeling or not Mother Mary has always protected us. Think always you can feel and enjoy the light within you.

PILGRIMAGE, VOYAGE, FULFILLMENT

Life in this universal life, first started as a voyage. In this life we have to come across lots of ups and downs, and at the same time we have to see beautiful mountains, meadows, forests, snowfields, and also a lot of animals. With beautiful deer coming before us, standing without any movement, like a statue, then it goes very fast. The speed of the deer gives a lesson to our mind: Be fast, and steady. With steady you must study your inner self. That is self realisation. The voyage never ends, it takes us on a pilgrimage. Each step of yours gives a great lesson. That lesson I want to describe the wonderful experience of McKoWinskey (Balaji). He started a pilgrimage from the paradise of 53, Plantan Alle Straze, Duisburg an der Ruhr.

Duisburg an der Ruhr, Essen, Dusseldorf, Koloon, and Mulhiem are the most wonderful divine places. Once upon a time it was all full of forests. Saints and sages lived there doing a great divine work, fire ceremony (homam), and rituals. Especially in Mulheim an der Ruhr there are a lot of hidden secrets of the divine there. The vibration from that

soil gives strength to all living beings. One must understand the beauty of the living place (land). Love your land, respect, bow your head to Mother Earth for giving this wonderful opportunity.

When you are on a voyage, you have to adjust not only within yourself, but with the surroundings. When you travel by river or sea you must go along with the force and also you must judge the depth and force. It is a great experience to become courageous and also it makes you soft, smooth, adjust with water and its force. Even though it is strenuous, when you reach the harbour or land you feel a joy in your body and mind. What a wonderful voyage! The calmness which you learn, the bravery which you learn, the patience which you learn take you towards pilgrimage. What a wonderful, holy pilgrimage which Mr. Mckowinsky took. It is because of his previous incarnations, otherwise it won't happen.

His pilgrimage towards Santiago is not a decision or a plan made out of his own wish. It is the divine wish that gave him the opportunity to start and it guides upto the end. The destination of the pilgrimage is nothing but inner peace, happiness, harmony. There is no end for the pilgrimage, it goes on and on and on. So, the ultimate aim of this birth in

this universal life as a human being is to get inner peace, to have the courage to solve the other problems and make them calm and peaceful, and also the most important: being oneself with full of divine love. Smile, beauty, dignity, sincerity, brings sovereignty for the birth in this worldly life. It is the greatest gift by God. You and I cannot see God before our eyes. Why? Because He is within us. He makes us do good things. Do good, Say good, and you can feel and enjoy the life which is given by the Almighty Mother. Mother and Her grace give spontaneous energy and all our actions are going to fulfill others wishes. You wish for prosperity, peace, harmony, not only for yourself and family, pray for peace, prosperity, harmony for all people. Unity, love, compassion are gifts by God. It is absolutely our responsibility to give each and every soul.

My dear friends, don't waste the time, don't sleep day and night, don't sit and talk, talk, talk, blah blah blah. Come to the action, there we get the great gift from God. You are here to live forever and forever. Reality, sincerity brings security, not only for you, but for everyone. That must be a pilgrimage. Our pilgrimage towards the ultimate (God) only to serve our fellow men.

Thanks to all my friends! My sincere prayers for all of you.
My salutation to Mother because She is ultimate.

Danke! Thank you! Thank you!
