20th September, 2021

Dear Rupa, and all our friends,

I feel proud to share my thoughts by way of communicating these words with all of you. I feel a pleasant inner divine feeling full of love and compassion. I want to tell you all that always my thoughts are with you people, and my sincere prayer for the good to all our friends.

Today, in my mind, again and again, I flew with thoughts of Nature. One cannot change Nature but they can change their activities. Nature always gives peace, prosperity, love, and compassion. The beauty lies in our soul with this brightness of the brighter soul (that is love) it spreads all over.

No one can judge or compare what is meant by love. It can only be enjoyed within themselves. Relationships are not with mind or body alone. It is soul to soul, so that our ancient culture teaches a great lesson in our day-to-day lives.

Our forefathers always say, "Say Good, Do Good!". That is the message is purely love and compassion. Religion is not to divide people, it is to bring people together, full of compassion and unity, with all harmony.

The river flows as per the law of Nature to join the ocean. But in our mind, we all think our way of life is only according to our mind. Because of this, we underwent a lot of misunderstanding, separation and sorrows. Now, it is the divine order, and also Nature giving guidance to come closer to understanding each and everyone. That means come closer, be full of joy and positive thinking. In order to review or strengthen our body and mind, the easiest way is to spend a little time for the sake of goodness of ourselves, and also for the entire community. What is it? It may be a surprise, pray to the Almighty, Mother Mary, and do meditation.

Whenever you find time go to an open place or your garden, sit a while, breathe the fresh air. The fresh air is not only bringing strength, it also makes you work with a positive approach. The beauty of Nature is an act of the Creator (God). Don't try to be alone; you become tired. Rather, be with friends and spend the time with purpose; thinking or doing something. There you can enjoy the cooperation of others, the unity, integrity, and sincerity, makes you move

forward and achieve your aim in life. If problems come, don't cry! Think immediately on how to overcome the problem or solve it. The Divine Mother gives you the answer within you. You will achieve the goal of life, full of peace, prosperity, and whatnot. One thing you think about Nature.

TAKE WATER

It is in your body, and also outside. How it helps to nourish our life. One example is that the ocean is not coming to us, we only go to the ocean to enjoy the beauty of Nature. One must understand, God created all these beauties in the universe only for the sake of human beings. Whether we are attached towards them or not, they are attached to us. Go to your lawn or backyard or your farmhouse. Speak with the plants, and the wonderful fruits or flowers. It also enjoys, and you also enjoy not only the benefit of it, but at the same time the beauty of it. What a wonderful gift God has given us.

One has to understand how to accept or adjust ourselves with the circumstances. It can be done with a free mind and cooperation with each other. There you can be one with everyone, full of compassion, because it is reality.

Reality never vanishes, it is always living with us. The great treasure of love is within us. It is absolutely our duty to bring it out. Love is eternal. One thing I want to tell you, give a moment, breathe well, and breathe deeply. You will feel a flow of energy, and the depth of the energy in your own self. It makes you think positively and gives unexpected happiness. Emotions come quickly without any preplanning. But controlling the emotion with all of our sincerity, and belief and faith towards the Almighty.

Dear friends, you are all great, you are ancient. Life is not only about the family or the country that stood on top, but it is destroyed all of a sudden because of the cruelty of war and cruelty of rulers murdering people. So many people were made to die by suffocation and cruelty. All these things made us not only mad, but also full of fear, and we forgot love, compassion and we learnt hatred, and anger. Western people after the war became so nervous, not able to believe in their capacity and capability, and in their mind negative thinking had come.

It is the time Mother Mary (the Almighty) again brought the message of unity, integrity, sincerity and love with our fellow men. The Angels bring the light of beauty, and prosperity. Each and every action of ours do with sincerity, and at the

same time feel, enjoy that it is divine duty. The divine Mother is within you and she made you do all these things.

Personal love, and contact, and your work to do good things for others, social activities, all these things not only make you proud. It brings a long extent of strength and cooperation from others. We can come to the conclusion that all are one. Please think for a moment, " $1+1=1$ ". Whether you are born in Germany, Austria, or Swiss, we are all one. We are under the umbrella of unity as human beings. Even though I (Ramani) am a thousand miles away from you, each and every day, and every moment I think about you all. I pray to the Almighty to give all prosperity, peace, joy for you all. Joy is forever and forever. Make life joyful. No more misery. Help others and enjoy the divinity and bliss of Mother Mary.

Good Morgan! When you get up early in the morning. Think of Mother Mary (Almighty), "Give me strength, Show me the good path, Make me active to do good things for others. I must enjoy the love and compassion throughout my life. Oh my Mother God! It is absolutely your duty to give this boon to us". She will give. Dear friends, it is the glory of life!

Thank you Rupa for sending this letter to all our friends. My sincere prayer for their well being. My humble salutation to all of them.
