Dear Rupa,

Look at the sky early in the morning, the morning star giving you full blessings and hope. The sun rises in the east and tells you I'm with you to bring peace, happiness and strength not only for you, but for all your fellow men.

Enjoy the divine grace of beauty. In the excellent afternoon you are walking in the woods, the gentle wind touches you and says that everyone will become happy very soon. When you are in the middle of the woods with your friends, the trees and the leaves smile at you, at the same time you can see the wonderful sight in the sky. A very big rainbow, I don't know how to describe the beauty of the rainbow. It tells one thing that is liebe liebe liebe (love) frienden. So wonderful that the rainbow gives you inner energy and confidence. Be strong inwardly, make our friends full of strength mentally and physically. No more health problems, the divine light is coming for protection. The rainbow and its colours tells you

and wishes you for all harmony and peace. It is a great significance that the rainbow made you understand that your country is going to get more vigour, strength and prosperity. Now I came to realize the wonderful nature and its blessings.

Nature is always full of joy and gives strength to all of us. Just a moment, I feel myself standing near a water pond, I heard a wonderful sound of the birds, what a rhythm. So wonderful to hear and enjoy. I say to myself “Oh my god now I know your greatness at the same time I feel you are within me”. I started breathing easily, my blood system started giving me full strength to inform my friends of the beauty of nature. On my right side again I heard a sound, the wind murmuring with the sweetness of blessings and it was the great inner peace Wargalla (full of happiness) and also, I came to know a good smell of flowers and again it gave me surprise. I heard a voice in between your head and sky, two angles bless you and all. The voice of the angel says this “All the bad things will be over very soon and all the good things will come and make your fellow men to be happy”. When I said to myself thank god how great, how graceful you are towards mankind. It just started to shower rain drops; how beautiful blessings! The rain drops bring another message to all of you. All the difficult periods and lockdowns will go

away soon. Wargalla remains full of joy. Wargalla means happiness to all, at all times.

Thanking you,
Dankan
