Dear Rupa,

The almighty blesses all of us. Oh my god how to thank you for being connected with you and with your abundant love, affection and compassion. How to thank you, the only way is to surrender myself to the lotus feet of almighty. You have brought me into this worldly life after creating all wonderful things in order to enjoy each and every soul. It is in the early morning, darkness has gone, blue sky shining like a white blue ice slice glacier. Gentle wind brings sweet news and memories to my mind. Immediately my mind pushed me out of my room and I started walking over the woods and meadows. I realise now with nature the purpose of life. I understand from the inner depth of my soul to do service to all living beings.

Life is not only to live for ourselves but also to be for each and every one.

The universe is common and divine light is common and it is our absolute responsibility to share with each and everyone with compassion. We have to remove the hatred from the mind. How is it possible ? I get the answer: love everyone whether you know or not. Then you can be like an angel to give harmony along with nature. Nature is created by the almighty (God).

Sometimes the ego mind tells you to think about yourself and not about others' well being. My soul commands me to think good and always do good. Then one can realise what is life and it is nothing but SANTHUSTI surrender yourself with nature and live with nature forever and ever.

Earth, sky, wind, light will guide you and the fire is in your soul that makes everyone to realise the wonderful world as God's creation.

One must breathe fresh air and enjoy the wonderful sight of nature. Again I request you to come out of your room, see the outside and walk with positive thinking and you can talk to nature inwardly. Fresh air, the flow of water from the mountains, rivers and valleys gives you a

welcome. Looking at the mountain side, beautiful deer started looking at you and admiring themselves on seeing you. The deer says how great human beings are. Now I want to think about the inner connections of the souls from deer and me.

It is so related sometimes you may think it is funny. It is really a tenderness of love and compassion. Here is the GOD who brings everyone closer and closer. What a wonderful life ! What a wonderful world ! It is like a morning star. Now the breeze blesses you which gives you freshness in our mind, body and soul. Nature is your partner; a never ending relationship full of compassion.

OM SHANTHI  
SANTHUSTI

Thanking you,  
Guruji

Always think that today is good and everyday is going to be so good because of that I can do wonderful things in life. Oh god give me the strength and good mind to do good things to everyone at all times. That is life. Thank God for giving this opportunity to serve others. These simple words will give you more energy and strength to do good things with the blessings of the divine mother. Enjoy the divine joy.

OM SHANTHI  
SANTHUSTI

Thanking you,  
Guruji

Dear Wargalla,

Happiness is the embodiment of love and affection. How blessed you are. The creator gives you this great opportunity to come closer and closer to all our friends throughout the universe. How to enjoy the creator's beauty? Very simple: Love nature, be with nature and understand the roots of nature. Now you can feel the great divine energy strength to do good things forever and forever to all.

What a real surprise, one early morning I had a dream in which two angels called me with a sweet voice, "Wargalla Wargalla". That means happiness and happiness for all and it says Mother Mary in Kevelaer waiting to see you there with your friends. When you light a candle Mother says she will bring out a lot of hidden things within your soul. By that you can make others understand life to adjust and accommodate free like the wind. Your voice sounds like wind and light that makes everyone

harmonious. You have to establish sweetness in your life. The angel commands you to say Mother Mary not only blesses you but also gives you honey cake. Now it is your duty. Take your pen, connect it with your soul and write. This will bring peace and happiness for all our friends.

**“SANTHUSHTI”**
