Dear Rupa,

The greatest healing power in the universe is love, peace, compassion, forgiveness, divine wisdom, inner joy, oneness, Ravi, Shakthi, Shiva. For every wave of emotion or thought, there is a bright light within. Be still and focus on your light and the waves will pass through you. In this context, I want to tell you: rays of sunlight are divine energy which, without your knowledge, passes through your body and goes out. Those rays, while going out through the body, take away all the bad things. As an example, it is like washing our clothes. One must be aware whenever the time permits; we must come out of our houses, and walk through the open air, meadows, and woods, and enjoy the beautiful creation of the Almighty. Go to a stream, enjoy the flow of water, calm yourself down, and listen to the rhythmic sound from the forceful water. It makes you happy, and at the same time you can enjoy and experience the flow within you.

Thanking you,
Guruji

Dear Rupa,

The Divine force coming from the sky to the earth, the double energy of light and sound coming together, make not only that place purified, but the same rays purify everything, especially the people who pass through that area - Fully charged with that power (Fully energized). How to praise the Almighty? The work of his play to enlighten mankind. The Almighty, the Great Mother, only knows what her children want. She is always giving energy, support, and enlightenment in this worldly life.

My dear friends, what a wonderful opportunity you have got in this worldly life, in the form of human life? Only we can enjoy the bliss, the enlightenment and at the same time the oneness God. I surrender my thoughts and deeds at the lotus feet of Mother Mary.

SANTHUSTI

Thank you!

Dear Rupa,

Think for a moment. Who is going to take care of you in this worldly life? Suddenly, a voice from the sky says, “Nature will take care!”. Nature is abundant and full of energy and love. With that same energy and love, take your hand to walk in the right path, so that you can find joy and harmony. So simple! So beautiful! So elegant! To me, here in this worldly life, with the blessing of nature, sit in the open air or walk through the forest or meadows. You will get crystal clear air, and light with full of energy. God created the mountains and woods not for beauty, but to support us in this worldly life. More stronger, and stronger with joy, harmony, along with support. One must have come to a conclusion by now: we and nature become one. It is true, that the divine calculation is: $1+1 = 1$.

Thank You! Thank You! Thank You!

Guruji
