Dear Rupa,

Always in my mind and thoughts, the great sweet and divine voice murmuring “Veate-Wargalla”. The hidden treasure, wonderful divine voice which is within you will come out hereafter to do good things for the welfare of humanity. I am

very proud to pass this message to you, be active. Whenever you get thoughts, immediately make a note of it, that is my request.

Please pass on this message to all.

All my prayers for you!

Thank you,

Guruji

Experience

Always I used to get up a little late on Sundays. But this wonderful Sunday I got up at 5:40am, because I heard a sweet klung (sound) of a church bell. I got up and opened the windows, and pleasant fresh air touched my face and said “Welcome in”. Now I am able to understand how nature is nourishing us with all beings. I feel nature takes care of us like a newborn child.

My mind ordered me to go to the riverside. I went to the river Rhine and sat on the banks for sometime. Even though it was a little cold, I still enjoyed it. Like a dream, within a minute I feel myself like a running water, and go along with the force of the flowing water, to find out the way it ends. What a surprise! There is no end. Now I understand the limit of the Almighty and it reminds me, “Nature is nature, and there is no end for it”. Dear friends, in order to get good health, good energy, spend the extra time to enjoy nature

and feel nature. Not only yourself, but along with your family and friends. It is always in my mind that the bliss or the enlightenment come into my soul by the grace of Mother Mary. Again I came to my house. I feel bored and restless. Then for some time, I went to my garden. I felt a lovely paradise that is the glory of nature which makes my body, soul more energetic, powerful to do good things forever and forever. In the afternoon of Sunday, I drove my car towards Mülheim an der Ruhr. I entered Platanenallee straze. I stopped my car at 53 Platanenallee.

How do I say my dear friends? I looked for just a moment at 53 Platanenallee as a garden is really wonderful. It is a little paradise. I walked a little and entered the woods on one side and an open field on the other. In the field, a few cows and calves are there. A few cows looked at me straight and bowed their heads two times. I heard the sound of a bell from the neck of the cow, ringing in my ears - "Welcome". Some immediate light from the sky with a sweet voice says, "Rupa, wonders will happen by the grace of God to know about nature."

Please come to know today, your life is a pilgrimage, it is not just living. In this life of pilgrimage you will get all peace and harmony. Mother Mary is always taking care of us. Always

remember God is great, Nature is our life. Love nature, that means God loves you very much. Both God and Nature are the same.

Thank you,
Guruji

I am Ramani Guruji

My message to all our friends, in Germany, Austria and Switzerland. Be strong inwardly, nature is going to give abundant energy and strength and you will find peace and harmony in your day-to-day family life. And also, your work to do good service to others will bring lots of not only peace, but prosperity. My humble prayers always for you all. My salutations to Mother Mary.

Santhusti
